

20.1.21 WEDDING GUESTS ANSWER SHEET

table A						table B							
			1	1	0	r1				0	8	8	r1
		4	4	4	1				5	4	44	41	
table C						table D							
			0	7	3	r3				0	6	3	
		6	4	44	21				7	4	44	21	
table E													
			0	5	5	r1							
		8	4	44	41								

Table D is the best table because there is no remainder so all the tables will be full of guests. If you used the other tables, you would have a remainder which would mean you would need an extra table with just one guest (tables A, B and E) or just three guests (table C).
