

Alien Word Creation

Think of 8 compound words to write in the table, splitting them like I have shown you below:

Column 1	
green	house

Column 2	
butter	flies

Join a word from column 1 with a word from column 2 to make a new alien word:

Alien word	Definition	In a sentence
butterhouse	A home for those aliens who are always hungry	The emerald-green skinned alien stood inside of his ginormous butterhouse.

Complete at least 4 sentences with the new alien word, the definition of this word and your new word put into a sentence.

Post your work on to your portfolio once complete ☺
