# How to trap a wolf

Are you tired of hiding from the big, bad wolf? Build this clever wolf trap and you won't have to worry any more.

## You will need:

- a spade
- a brown sheet
- some leaves and sticks
- a toy pig

## What to do:

1. First, dig a deep, deep pit in the forest.

2. Then, cover the pit with the brown sheet.

3. After that, sprinkle some dead leaves and sticks on top of the sheet.

4. Next, place the toy pig on top to lure the wolf.

5. Finally, hide behind a large tree and wait.

Once the wolf is caught, you will be safe and sound.
