

	Learning objective	Main teaching	Activity	Resources	Vocabulary
Monday	To solve division problems	1 mins times tables practise: TT Rockstars or www.timestables.co.uk If you need to recap on the formal method, watch https://vimeo.com/492054136 again.	Complete the LOTTERY WINNERS worksheet. If you want a bit more practice with the formal method, choose A. If you want a little more challenge, choose B and if you feel confident, choose C.	worksheet	divide division divisor
Tuesday	To divide with remainders	15mins times tables practise: TT Rockstars or www.timestables.co.uk The remainder is the amount which is 'left over' or 'remaining' which you can't divide with the divisor. The remainder is always less than the divisor. We will look at this in the Y5 Zoom meeting. For more help watch: https://vimeo.com/492054148	Complete the DIVIDING WITH REMAINDER worksheet. If you want to practice dividing numbers with remainders, choose the worksheet on the website. If you are very confident dividing with remainder and want more of a challenge, choose the division problems worksheet but be careful it is quite tricky!	worksheet	divide division divisor remainder
Wednesday	To solve division problems with remainders	15mins times tables practise: TT Rockstars or www.timestables.co.uk We will look at this in the Y5 Zoom meeting. If you need to recap on remainder watch: https://vimeo.com/492054148	Complete the WEDDING GUESTS worksheet.	worksheet	divide division divisor remainder
Thursday	To solve mixed problems	15mins times tables practise: TT Rockstars or www.timestables.co.uk Solving problems using the formal multiplication method and column addition and subtraction.	Complete the ASHA'S SHOPPING TRIP worksheet. Have a go at Worksheet B first. If you find it very tricky try Worksheet A.	worksheet	add subtract multiply divide remainder
Friday	To solve mixed problems	15mins times tables practise: TT Rockstars or www.timestables.co.uk Solving problems using the formal division method and column addition.	Complete the WEIGHT PROBLEM worksheet. If you want to keep things simple for a bit more practice, choose A. If you want a little more challenge, choose B and if you feel confident, choose C.	worksheet	add subtract multiply divide remainder
