

At the weekend, I made pizza. I had to make the dough first, which was quite a messy job. I mixed some flour, water, salt, oil and yeast in a bowl. I got sticky dough all over my hands when I kneaded the dough. Next, I stretched the dough to make the bases and then added the toppings. We baked them in the oven and ate them with salad. My favourite pizza was pepperoni because it was spicy.

Can you turn this recount into a sequence of instructions to make pizza?
