

# PIG PEN

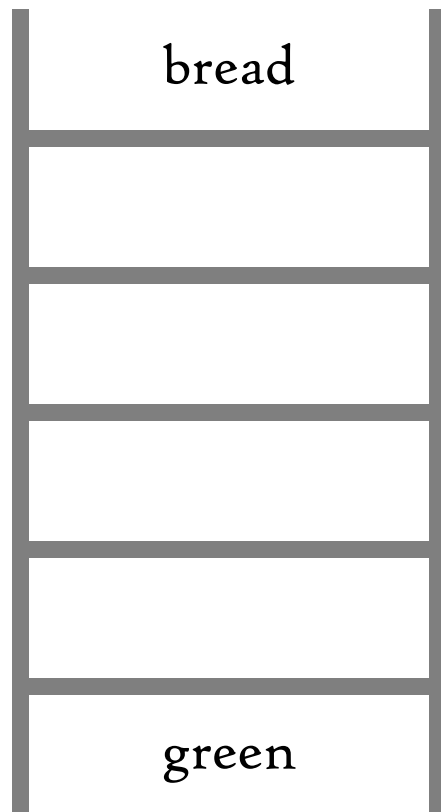

A farmer put nine pigs in a square pen. Unfortunately, they all fought each other so he decided he had to keep them all apart. He only had two pieces of fencing left. They both had four sides and one was smaller than the other.

How did he place the fencing inside the pen to keep all the pigs separate? Draw the two pieces of fencing on when you think you have found the solution.

# WORD LADDER

Can you turn the word 'bread' into 'green' in five steps by changing each and every letter one at a time? Use the clues to the right to help you. If you get really stuck use the online thesaurus at the website below or use your own if you have one. Remember: if the clue says 'verb' make sure you are looking at verbs in the thesaurus.

noun: *footstep*

verb: *cure*

adjective: *tremendous*

verb: *welcome*
