

Tanzania

Tanzania is the largest country in East Africa. It is near the equator and next to the Indian Ocean.

It is visited by lots of tourists who want to see all the amazing landmarks and animals there.

Ngorongoro Crater

It was formed about three million years ago when a large volcano exploded and collapsed in on itself. Many animals live there, including zebra, lions, elephants, leopards and rhinos.

Serengeti

This is an area of grassland and swamp where many African animals live. It is a popular place for safari trips and is also a protected area because of the animals that live there.

Mount Kilimanjaro

This is a dormant (sleeping) volcano and is the highest mountain in Africa. The top is covered with snow and ice and the temperature is below freezing.

Lake Victoria

It borders Uganda, Kenya and Tanzania and is the biggest lake in Africa. It was named after Queen Victoria by a British explorer. Over 200 types of fish live in the lake.
