

	Learning objective	Main teaching	Activity	Resources	Vocabulary
Monday	Monitor Free Monday – see separate plan for details.				
Tuesday	LO: to multiply a two-digit number by a one-digit number using partitioning.	LOOM Watch the loom video to learn how to multiply a two-digit number (TO) by a one-digit number (O) using partitioning: 	Complete the number sentences given using the partitioning method. Remember: <ul style="list-style-type: none"> • Partition the larger, two-digit number into tens and ones. • Multiply each of those numbers by the smaller, one digit number. • Add those amounts together to reach the answer (product). 	Loom video, exercise book, pencil, number sentences.	Tens, ones, partition, digits, related facts, multiply, add, product.
Wednesday	LO: to multiply TO x O using the column method.	LOOM Watch the loom video to learn how to multiply TO x O using the column multiplication method: 	Complete the number sentences and problem questions using the column multiplication method. Remember: <ul style="list-style-type: none"> • Write the multiplication number in a column format. • Multiply the ones first (O x O), writing the answer in the 'ones' column. • Multiply the T x O, writing the answer in the 'tens' column. 	Loom video, exercise book, pencil, multiplication questions.	Tens, ones, column, digits, related facts, multiply, product.
