$\begin{array}{llllllllllllll}2 & 4 & 6 & 8 & 10 & 12 & 14 & 16 & 18 & 20 & 22 & 24 & 26 & 28\end{array}$

| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| 21 | 22 | 23 | 24 | 25 | 26 | 27 | 28 | 29 | 30 |
| 31 | 32 | 33 | 34 | 35 | 36 | 37 | 38 | 39 | 40 |
| 41 | 42 | 43 | 44 | 45 | 46 | 47 | 48 | 49 | 50 |

$\begin{array}{llllllll}34 & 36 & 38 & 40 & 42 & 44 & 46 & 48\end{array}$

Lola should have said 28 instead of 29.
Om is wrong. It is the ones digit that should be $0,2,4,6,8$.

## 12 camels would have 24 humps.

There would be 8 pairs of socks and one left over.
